After the regular meeting of the state board of charities in April, I think it was Senator Kelly and Senator House-holder were here from Topeks, and in a conversation with Mr. Kelly I was informed that Mr. Householder was here for the purpose of collecting money from the institution. Mr. Kelly stated that the different institutions would be called upon for certain sums, and that those holding positions either by Populist gift or by their forbearance, would be expected to contribute. He further informed me that I would be expected to contribute about fifty dollars, and he advised me to comply with the demand and to hand the amount to him, to get along more pleasantly during the balance of my term of office than would be the case should I refuse.
